

Emory Department of Medicine

Regenerative Medicine

a workshop

June 21, 2003

Emory Conference Center - Atlanta, GA

REGISTRATION FORM

Registrant Information (Please type or print clearly)

Name _____

Organization _____

Address _____

City _____

State _____ Zip _____

Phone _____

Fax _____

Email _____

Area of Research (Briefly describe your interests in Regenerative Medicine):

If you would like to be included as a presenter in the Round Table Discussion please check the desired session (choose all that apply). Please note the presentations should be no more than 5 powerpoint slides - max of 10 minutes per person.

- Cell selection, identification and sorting
- Embryonic vis-à-vis adult stem cells
- Animal models
- Tissue specific stem cell therapy
- Pathway to clinical testing of stem cell therapy for organ injury

Preliminary Program

9:00am

Welcome: R. Wayne Alexander, M.D., Chairman,
Department of Medicine, Emory University

9:30am

Speaker I (Basic Science): Dr. Karen Hirschi---
Baylor College of Medicine

10:00am

Speaker II (Translational): Dr. Steven Stice—
University of Georgia

10:30am

Break

11:00am

Speaker III (Translational): Dr. Saul Sharkis—
John Hopkins University

11:30am

Speaker IV (Regulatory): Dr. Dwaine Rieves, FDA

12:00pm

Lunch

1:00pm

Speaker V – Robert Nerem, Ph.D., Update on a
National Initiative for Tissue
Engineering/Regenerative Medicine Initiative

1:30pm

Afternoon Round Tables

- Cell selection, identification and sorting
- Embryonic vis-à-vis adult stem cells
- Animal models
- Tissue specific stem cell therapy
- Pathway to clinical testing of stem cell therapy for organ injury
