

FRAY F. MARSHALL, MD CONTINUED FROM INSIDE

His many and varied accomplishments include a patent for a second-generation lithotripter and designing the Omni Tract Marshall Bladder Retractor Blade. He also helped to develop the first ex-vivo gene therapy treatment for kidney and prostate cancer. Although his initial interests included pediatric urology, endourology, and microsurgery, he always has maintained a strong interest in urologic oncology. He has made many innovative contributions to the management and surgical treatment of large and small kidney tumors, bladder reconstructions, and less invasive prostate cancer surgery, performing approximately 1,200 radical prostatectomies at Emory. His honors include the 2000 Distinguished Contributor Award from the American Urological Association, honorary membership in the Japanese Urological Association, and being named the first International European American Urological Association (AUA) Exchange Professor. He is a member of the American Urological Association, the American Association of the Genitourinary Surgeons, the Clinical Society of Genitourinary Surgeons, and the American Board of Urology.

Dr. Marshall is proud of the evolution—largely due to his vision and efforts—of Emory Urology from a division of general surgery to a nationally and internationally recognized department of urology with a widely acclaimed faculty, residency, and research program. The Fray F. Marshall Chair in Urology will be devoted to research. Dr. Marshall believes combining the research efforts of diverse scientists with practicing clinicians is required for innovation and improved medical treatments in the future. The Fray F. Marshall Chair in Urology will help ensure that legacy.

The number of contributors to this chair is a great testament to the lasting effect Dr. Marshall has had on his patients, friends, the field of urology, and medicine in general. He believes that the love and support of his wife, Lindsay, his children Wheatley and Brooks, and his daughter-in-law Kami have allowed him the luxury of pursuing his successful career. ■

AN  
EVENT TO HONOR  
**Fray F. Marshall, MD**

AND  
TO CELEBRATE THE  
ESTABLISHMENT  
OF

**THE FRAY F. MARSHALL, MD  
CHAIR IN UROLOGY**

## FRAY F. MARSHALL, MD

FRAY F. MARSHALL, currently the Ada Lee and Pete Correll Professor of Urology and Chairman of the Department of Urology, Emory University School of Medicine, is a highly celebrated clinician, published author, and revered leader in academic medicine.

Dr. Marshall grew up in New York City, where he graduated from the Collegiate School. He spent summers in a family log cabin in Virginia, later attending the University of Virginia (UVA) as a French major. There he played football and soccer and graduated with distinction after three years. After medical school at UVA, he completed his internship and two years of general surgery residency at the University of Michigan. He finished his Urology Residency in Boston at Massachusetts General Hospital, Harvard University. Before coming to Emory in 1998, he spent 23 years at Johns Hopkins University School of Medicine, where he became the first Bernard Schwartz Distinguished Professor of Urology and Oncology. He was also the Director of the Division of Adult Urology and served as Chief of Urology at Baltimore City Hospitals.

As an active academician and researcher, Dr. Marshall has co-authored more than 300 scientific papers and book chapters. He also edited the books *The Undescended Testis*, *Urological Complications* (two editions), *Textbook of Operative Urology* (two editions), and *The Prostate* (two editions). He is editor of the *American Urological Association Update Series* and was an editor of *Urological Survey of the Journal of Urology*. In addition, he has served on multiple editorial boards including *Urology* and the *International Journal of Urology*. Dr. Marshall has produced more than ten videos of new operative procedures. He has been a visiting professor at many universities nationally and internationally. CONTINUED ON BACK PAGE >

## PROGRAM

### *Welcome*

CHAD W. M. RITENOUR, MD  
Associate Professor and Interim Chair, Department of Urology

### *Celebratory Toasts*

### *Remarks*

CHUCK WARREN  
Chairman, Department of Urology Advisory Board

JOHN A. PETROS, MD  
Associate Professor, Department of Urology

### *Presentation of the Chair*

THOMAS J. LAWLEY, MD  
Dean, Emory School of Medicine

### *Honoree's Remarks*

FRAY F. MARSHALL, MD  
Ada Lee and Pete Correll Professor of Urology  
Chairman, Department of Urology
