CEU's and CME for physicians, nurses and social workers are available.

## Emory University Hospital

**Q: What are Schwartz Rounds?**

**A:** A hallmark of the program is interdisciplinary dialogue. Panelists from diverse disciplines participate in the Rounds. After listening to a panel's brief presentation on an identified case or topic, caregivers in the audience are invited to share their own perspectives on the case and broader related issues. Caregivers have an opportunity to share their experiences, thoughts and feelings on thought-provoking topics drawn from actual patient cases. The premise is that caregivers are better able to make personal connections with patients and colleagues when they have greater insight into their own responses and feelings.

Schwartz Rounds currently occur at over 215 hospital sites in 32 states.
