Emory’s Woodruff Health Sciences Center is working to pioneer new ways to prevent and treat disease, prepare the next generation to save and improve lives, provide the highest-quality clinical care possible, and serve the community.

Jonathan S. Lewin, MD
Executive VP for Health Affairs, Emory University
Executive Director, Woodruff Health Sciences Center
President, CEO, and Board Chairman, Emory Healthcare

On the cover: New bridge to a new Emory University Hospital tower, which opens this year.
Founded in 1966, the Woodruff Health Sciences Center is named for the legendary leader of the Coca-Cola Company, Robert W. Woodruff. It includes three schools, a national primate research center, a cancer institute, and the most comprehensive health care system in the state. The center is a component of Emory University (see box at bottom), and many of its facilities are located on Emory’s main campus, five miles east of downtown Atlanta. The center also has clinical facilities throughout metro Atlanta and the state.

**Center Components**

- Emory University School of Medicine
- Nell Hodgson Woodruff School of Nursing
- Rollins School of Public Health
- Yerkes National Primate Research Center
- Winship Cancer Institute
- Emory Healthcare
  - Emory University Hospital
  - Emory University Hospital Midtown
  - Emory University Orthopaedics & Spine Hospital
  - Emory Rehabilitation Hospital
  - Emory Saint Joseph’s Hospital
  - Emory Johns Creek Hospital
  - Emory University Hospital Smyrna
  - Emory Clinic
  - Emory Specialty Associates (outreach physician practice organization with locations throughout the city and state)
  - Emory Wesley Woods Campus (includes Emory University Hospital annex as well as residential retirement and skilled nursing care facilities)
  - Emory Healthcare Network (clinically integrated network of Emory faculty and private practice physicians and hospitals formed to improve care coordination and quality outcomes)

The Woodruff Health Sciences Center is part of Emory University, which also includes Emory College of Arts and Sciences, Oxford College, Laney Graduate School, Goizueta Business School, Emory School of Law, and Candler School of Theology. Including health sciences, Emory has a total of 14,913 students, 4,515 faculty, 29,931 employees, and an endowment of $6.5 billion.

Emory University School of Medicine (founded 1854)

David S. Stephens, MD, Interim Dean
med.emory.edu

Emory University School of Medicine has 2,716 full- and part-time faculty and 692 volunteer faculty. The school had more than 8,800 applications in 2016 for 138 first-year medical student positions. This racially diverse class is 59% women, and 68% of the class members are nontraditional, meaning that they were out of college for at least a year before entering medical school. In 2016, the pass rate for first-time takers of step 1 of the National Board Exam (testing basic science knowledge and skills) was 97%.

The school has 575 medical students and trains 1,266 residents and fellows in 104 accredited programs. The school has 93 MD/PhD students in one of 48 NIH-sponsored Medical Scientist Training Programs. Some of these students are in a joint program with Georgia Tech, with which the medical school shares a biomedical engineering department ranked third in the country by U.S. News & World Report. The medical school also offers a joint MD/MSCR (master's in clinical research) degree, an MD/MPH degree with public health, and an MD/MA in bioethics with Emory's Laney Graduate School. Dual programs with law (juris master) and business (MBA) also are available. Some 243 medical faculty also train predoctoral bioscience researchers in eight programs in the Graduate Division of Biological and Biomedical Sciences in the graduate school.

Faculty in five allied health programs train 509 students. These include a physician assistant (PA) program ranked third in the nation by U.S. News & World Report and a physical therapy (PT) program ranked fifth.

Medical school faculty received $348 million in sponsored research funding in fiscal year 2016, plus another $87.9 million in funds at other units in the health sciences center and at the Atlanta VA Medical Center. Ranked 18th nationally in NIH dollars received, the school is best known for its research and treatment in infectious disease, neurosciences, heart disease, cancer, transplantation, orthopaedics, pediatrics, renal disease, ophthalmology, and geriatrics.

Physician faculty in Emory’s hospitals, affiliate teaching hospitals, and outpatient venues were responsible for 5.3 million patient service visits in 2016. Alumni totals: 5,871 medical school, 11,088 residency/fellowship, 6,058 allied health (the latter includes 1,255 PT and 1,787 PA alumni). About 25% of the physicians in Georgia have trained at Emory. In addition to the school’s regular education programs, 3,043 physicians and other health care professionals participated in continuing medical education classes offered by Emory.

Nell Hodgson Woodruff School of Nursing (founded 1905)

Linda McCauley, PhD, RN, FAAN, FAAAOHN, Dean
nursing.emory.edu

The Nell Hodgson Woodruff School of Nursing has 374 bachelor's, 236 master's, 34 PhD, and 21 doctor of nursing practice (DNP) students. Bachelor's degree graduates go on to become national and international leaders in patient care, public health, government, and education. Master's degree graduates are qualified to seek certification as nurse practitioners and nurse-midwives. The school's PhD program focuses on clinical research. Its DNP program offers two specialty tracks: health systems leadership and population health.

The school offers a dual undergraduate degree with several colleges, dual master's degrees with public health and with Emory's Laney Graduate School in bioethics, and accelerated BSN/MSN programs for students with degrees in other fields who want to serve the community as advanced practice nurses.

In fiscal year 2016, the school received $15.1 million in research funding from all sources and ranks first nationally in NIH funding. The school is ranked
The Rollins School of Public Health has 1,140 master’s degree students and 189 PhD students who choose from degree options in behavioral sciences and health education, biostatistics and bioinformatics, epidemiology, environmental health, health policy and management, and global health.

A leader in interdisciplinary studies, the school offers dual-degree programs with medicine, nursing, physician assistant, physical therapy, business, theology, law, and the graduate school. A distance-based master’s program, the Executive MPH, allows professionals to pursue a degree while they are employed.

In fiscal year 2016, the school received $94.8 million in research funding, supporting efforts in cancer prevention, cardiovascular epidemiology, nutrition, environmental health, HIV/AIDS, safe water, tobacco control, mental health, addictive behaviors, injury and violence, antibiotic resistance, diabetes and obesity, and health services. The school ranks ninth nationally in NIH funding.

Many of the 300 full- and part-time faculty and 425 adjunct faculty in six academic departments are linked by appointments, shared programs, or research grants with the CDC, Carter Center, American Cancer Society, CARE, Arthritis Foundation, Task Force for Global Health, and state and local public health agencies. Through these partnerships and in its role as a center for international health research and training, the school helps make Atlanta a worldwide destination for public health. The school is ranked seventh among peer institutions by U.S. News & World Report. It has 8,009 alumni.

Yerkes National Primate Research Center (founded 1930)
R. Paul Johnson, MD, Director
yerkes.emory.edu

Dedicated to discovering causes, preventions, treatments, and cures, Yerkes National Primate Research Center (NPRC) is fighting diseases and improving human health and lives worldwide. One of only seven NPRCs funded by the NIH, Yerkes conducts studies that make breakthrough discoveries possible. Yerkes research involves 1,000 nonhuman primates at its main center on the Emory campus and another 2,000 at its field station in Lawrenceville, Ga. The center also has 10,000 rodents in its research vivaria.

Yerkes has 360 staff members, 55 faculty scientists, and 154 students participating in research programs. Supported by $79.1 million in research funding (all sources) in fiscal year 2016, Yerkes ranks first in NIH funding among national primate centers. Yerkes grounds its research in scientific integrity, expert knowledge, respect for colleagues, an open exchange of ideas, and compassionate, quality animal care. Researchers are making landmark discoveries in microbiology and immunology; neurologic diseases; neuropharmacology; behavioral, cognitive, and developmental neuroscience; and psychiatric disorders. The center’s research focuses on vaccines for infectious and noninfectious diseases, the basic neurobiology and genetics of social behavior, and new treatment strategies for improving social functioning in autism spectrum disorder. Research also seeks to interpret brain activity through imaging, pave the way for treatments of life-changing illnesses such as Alzheimer’s and Parkinson’s, unlock the secrets of memory, teach us how interactions between genetics and environment shape who we are, and advance knowledge about evolutionary links between biology and behavior. Since 1984, the center has been fully accredited by the Association for Assessment and Accreditation of Laboratory Animal Care International, regarded as the gold seal of approval for laboratory animal care.

Winship Cancer Institute of Emory University (founded 1937)
Walter J. Curran Jr, MD, Executive Director
winshipcancer.emory.edu

The Winship Cancer Institute is the only National Cancer Institute–designated cancer center in Georgia and one of only 69 in the country. Winship has 444 faculty and received $83.9 million in research funding reported in 2016, with $38.6 million from the NCI. Faculty include investigators in the schools of medicine, public health, and nursing; Emory College; and Georgia Tech. They collaborate with professionals from around the world and with national and state agencies, including the CDC, American Cancer Society, and Georgia Research Alliance.

Winship physicians provide care at Emory University Hospital, Emory University Hospital Midtown, Emory Saint Joseph’s Hospital, Emory Johns Creek Hospital, Grady Memorial Hospital, the Atlanta VA Medical Center, and Aflac Cancer Center at Children’s Healthcare of Atlanta. In addition to using state-of-the-art approaches to therapy, Winship facilitates cancer prevention, treatment, and survivorship through support groups and integrated complementary therapies.

Winship investigators conducted more than 250 clinical trials and enrolled more than 700 patients in 2016. Winship has the largest unit in Georgia for phase I clinical trials, which are important to introducing new therapies against cancer. Winship works with the Georgia Center for Oncology Research and Education to partner with community-based physicians to expand availability of clinical trials throughout Georgia. In 2016 Winship also launched Winship Cancer Network, a partnership with community hospitals enhancing access to research and treatment.

Woodruff Health Sciences Center

At a Glance 2017
Emory Healthcare (EHC) (founded 1997)
Jonathan S. Lewin, MD, President, CEO, and Chairman of the Board
Ira Horowitz, MD, Interim Physician Group President
Dane Peterson, MBA, Hospital Group President
emoryhealthcare.org

The most comprehensive health system in Georgia, Emory Healthcare (EHC) includes Emory University Hospital, Emory University Hospital Midtown, Emory University Orthopaedics & Spine Hospital, Emory Rehabilitation Hospital, Emory Saint Joseph’s Hospital, Emory Johns Creek Hospital, Emory University Hospital Smyrna, Emory Clinic, Emory Specialty Associates, facilities at Emory Wesley Woods Campus, and the Emory Healthcare Network. EHC includes a joint venture with Select Medical for rehabilitation medicine and is also affiliated with Stratus Healthcare, a nonprofit alliance of care providers located primarily in Central and South Georgia.

In fiscal year 2016, EHC had $3 billion in net revenue and provided $72.3 million in charity care. It has 16,204 staff employees and 1,976 hospital beds (128 additional beds coming online in 2017). Annual hospital admissions total 71,705, and outpatient service visits, 4.4 million. In fiscal year 2016, EHC clinicians saw 613,253 individual patients. In addition to EHC clinical locations listed on pages 8-9, the Emory Healthcare Network partners with MinuteClinic and Peachtree Immediate Care and SmartCare urgent care providers throughout metro Atlanta.

Emory University Hospital Midtown (founded 1908)
Daniel Owens, MBA, CEO
emoryhealthcare.org/euhm/index.html

A tertiary care facility, Emory University Hospital Midtown (EUH Midtown) has 529 licensed beds and is staffed by 1,308 Emory School of Medicine faculty and 444 private practice physicians. EUH Midtown has 86 ICU beds, in addition to a level III neonatal intensive care unit. Patients in fiscal year 2016: 22,749 admissions and 240,468 outpatient service visits. Staff employees: 2,860.

EUH Midtown has a high case-mix index and is well known for services in cardiology, cardiac surgery, gastroenterology, neurosurgery, cancer, orthopaedics, and emergency medicine. Women’s services include prenatal and postnatal education, bone density testing, mammography, and obstetrics, with specialization in high-risk pregnancy.

Emory University Orthopaedics & Spine Hospital (founded 2007)
Bryce Garland, MD, CEO
June Connor, RN/MN, COO/CNO
emoryhealthcare.org/euosh/index.html

An extension of Emory University Hospital, Emory University Orthopaedics & Spine Hospital is located in Tucker, Ga. It has 120 licensed beds and seven ORs and has ranked in the top 10% of hospitals in the country for nine years in patient satisfaction. It is a “Magnet” hospital, a designation earned by only 6% of U.S. hospitals for nursing excellence from the American Nurses Credentialing Center. Patients in fiscal year 2016: 3,079 admissions. Staff employees: 257.

Emory Rehabilitation Hospital (founded 1976)
Eric Garrard, CEO, (Emory Healthcare–Select Medical Joint Venture)
emoryhealthcare.org/erl/index.html

Emory Rehabilitation Hospital (ERH) has 56 beds and is staffed by 92 Emory faculty physicians. ERH is part of a joint venture with Select Medical, which also includes 24 outpatient rehab facilities and a day rehab program. Specializing in stroke, ERH is one of the nation's highest acuity rehabilitation hospitals. Patients in fiscal year 2016: 1,013 admissions and 115,616 outpatient service visits. Emory Rehabilitation Joint Venture employees: 341.
Emory Healthcare Locations

Inpatient care
• Emory University Hospital (includes EUH at Wesley Woods)
• Emory University Hospital Midtown
• Emory University Orthopaedics & Spine Hospital
• Emory Rehabilitation Hospital
• Emory Saint Joseph’s Hospital
• Emory Johns Creek Hospital
• Emory University Hospital Smyrna

Outpatient care
Emory Clinic and Emory Specialty Associates (ESA) together have 105 group practice locations and ambulatory service sites throughout Atlanta and Georgia, plus one in Murphy, NC.

Additional provider locations
• The entities above and in the map at left are part of the broader Emory Healthcare Network (EHN), with 200 provider locations across the state. (See page 11.)
• Emory’s Winship Cancer Institute launched the Winship Cancer Network in 2016 to enhance access to Winship research and care to select hospitals and medical practices across Georgia and the Southeast. The network includes Lewis Hall Singleletary Oncology Center at Archbold Memorial Hospital in Thomasville (Thomas County) and Peyton Anderson Cancer Center at Navicent Health in Macon (Bibb County). See asterisks on the map at left.

*Winship Cancer Network member
Emory Saint Joseph’s Hospital (founded 1880)
Heather Dexter, MBA, MHA, CEO
emoryhealthcare.org/esjh/index.html

An acute care facility in the north metro area, Emory Saint Joseph’s Hospital (ESJH) has 410 beds. It has 435 Emory medical faculty physicians, 548 private practice physicians, and 23 Emory Specialty Associate physicians on its medical staff. Noted especially for cardiac care, ESJH provides training to physicians from around the world in robotic surgery for valve repair and is a primary location for cardiac rehabilitation. The hospital is noted also for cancer, neurologic, vascular, gastrointestinal, respiratory, and orthopaedic care, and is ranked among the top 25 hospitals nationally for joint replacement by the Centers for Medicare and Medicaid Services. ESJH has 62 ICU beds and is a “Magnet” hospital, recognized for its nursing excellence by the American Nurses Credentialing Center. Patients in 2016: 14,484 admissions and 120,545 outpatient service visits. Staff employees: 1,802.

Community services include free health screenings and in-kind donations to local organizations supporting the homeless and indigent.

Emory Johns Creek Hospital (founded 2007)
Marilyn Margolis, MSN, CEO
emoryhealthcare.org/ejch/index.html

Located in the north metro area, Emory Johns Creek Hospital (EJCH) is a 110-bed acute care facility staffed by 325 Emory faculty, 392 private practice physicians, and 41 Emory Specialty Associate physicians. Services include emergency medicine, a birth center with level III neonatal intensive care, adult intensive care, an infusion center, breast imaging with 3-D tomography, a certified bariatric center, advanced cardiac and stroke care, sleep medicine, and a pain center. EJCH patients in 2016: 6,895 admissions and 70,067 outpatient service visits. Staff employees: 797.

A community institution, EJCH partners with local churches, police, fire, and other organizations to offer health and wellness screenings and educational events for women, the elderly, and other patient populations.

Emory University Hospital Smyrna (founded 1974)
Daniel Owens, MBA, CEO

Located in the northwest metro area, Emory University Hospital Smyrna (formerly Emory-Adventist Hospital) recently transitioned from a joint venture to being wholly owned by Emory. This 88-bed facility is currently undergoing major renovation.

Emory Clinic (founded 1953)
Ira Horowitz, MD, Interim Director
Heather Hamby, Chief Business Officer, Physician Group Practice
emoryhealthcare.org/emory-clinic/index.html

The largest, most comprehensive group practice in Georgia, the Emory Clinic has 1,466 Emory faculty physicians, 350 nurse practitioners, and 283 physician assistants, with locations throughout the city and state. Nonphysician employees: 3,235. Patient service visits in fiscal year 2016: 2,998,955.

Emory Specialty Associates (founded 2006)
Heather Hamby, Chief Business Officer, Physician Group Practice
Maureen Haldeman, MBA, MHA, Chief Administrative Officer

In addition to the Emory Clinic, Emory Healthcare provides outpatient care via Emory Specialty Associates (ESA), an outreach physician practice organization with 34 locations in 11 counties throughout Georgia. ESA has 128 non-faculty physicians; 50 nurse practitioners; and 56 physician assistants. Employees: 754. Patient service visits in fiscal year 2016: 671,346.

Emory Wesley Woods Campus (established 1954)
Jennifer Schuck, MBA, Associate Administrator

Emory Wesley Woods Campus includes the following Emory Healthcare locations:
- Budd Terrace (John Pulliam, administrator), a 250-bed nursing care facility
- Emory University Hospital at Wesley Woods (See page 6.)
- Wesley Woods Towers (Terry Barcroft, President & CEO) is a 158-apartment residential retirement community, with 36 licensed personal care apartments housed on two floors. It is managed by Wesley Woods Senior Living, Inc.

Emory Healthcare Network (founded 2011)
Patrick Hammond, MHA, CEO
Scott Boden, MD, Chairman of the Board
emoryhealthcare.org/centers-programs/emory-healthcare-network/

The Emory Healthcare Network (EHN) is a clinically integrated network (CIN) with nearly 2,000 Emory and private practice physicians and seven hospitals. EHN was formed to improve care coordination and quality outcomes as well as control costs for patients and the community. It is the most comprehensive academically based CIN in Georgia, with 200 provider locations across the state, and its physicians practice in more than 70 specialties, including more than 220 who practice primary care. EHN also includes nearly 60 MinuteClinics and Peachtree Immediate Care and SmartCare urgent care locations throughout metro Atlanta.
Woodruff Leadership Academy (founded 2003)
Gary Teal, MBA, Director
whsc.emory.edu/wla

The Woodruff Leadership Academy (WLA) was established to develop leadership potential in professionals and managers in the WHSC to create, articulate, and achieve organizational vision. The WLA has 336 alumni.

Woodruff Health Sciences Center (WHSC) Hospital Affiliates

- **Atlanta Veterans Affairs Medical Center**, 466 hospital beds, including a 120-bed community living center, a 40-bed domiciliary, and a 21-bed residential treatment program. Annual patient totals: 7,345 admissions and 1,377,353 outpatient service visits. Staffed by 325 Emory physicians, providing the majority of patient care.

- **Children's Healthcare of Atlanta**
  - Children's at Egleston, 278 beds (Emory campus). Annual patient totals: 12,485 admissions and 306,898 outpatient service visits. Staffed by 321 Emory faculty physicians, with Emory clinicians providing 95% of care.
  - Children's at Hughes Spalding, 24 beds (Grady Hospital campus). Annual patient totals: 1,404 admissions and 91,944 outpatient service visits. Staffed by 90 Emory physicians and by private practice and Morehouse School of Medicine physicians, with Emory clinicians providing 75% of care.
  - Children's at Scottish Rite, 273 beds (north Atlanta). Annual patient totals: 13,947 admissions and 364,505 outpatient service visits; 90 Emory pediatric faculty teach and have admitting privileges here.

Emory and Children's are partners in patient care, research, and education in the Pediatric Center of Georgia, sharing a common vision to be a nationally recognized leader in child health. Pediatric Center research has helped Emory's Department of Pediatrics rank fifth in the nation in NIH funding.

- **Grady Memorial Hospital**, 953 licensed beds. Annual patient service visits: 27,959 admissions and 620,689 outpatient service visits. Staffed by 628 Emory medical faculty. In addition, 368 Emory residents and fellows provide care at Grady under supervision of the faculty. Together, these Emory physicians provide about 80% of care at Grady, with the other 20% provided by Morehouse School of Medicine and Grady-employed physicians.

Additional partners in Patient Care, Research, and Teaching

- **Atlanta Clinical and Translational Science Institute (ACTSI)**
  Emory is the lead partner in the ACTSI, a consortium funded by the NIH and created to translate laboratory discoveries into treatments for patients, engage communities in clinical research efforts, and train the next generation of clinical investigators. Other university ACTSI partners include Morehouse School of Medicine and Georgia Institute of Technology.

- **Centers for Disease Control and Prevention (CDC)**
  Emory and CDC have a number of research contracts and consulting partnerships. For example, Emory University Hospital's Serious Communicable Diseases Unit, where the first Ebola patients in the U.S. were treated, was built in collaboration with CDC. Emory faculty serve as advisers on public health committees throughout CDC, and CDC officers frequently serve as adjunct faculty in Emory's schools of public health and medicine.

- **Georgia Center for Oncology Research and Education (Georgia CORE)**
  Winship Cancer Institute works with Georgia CORE to partner with community-based physicians to make more clinical trials of new cancer treatments available to patients throughout the state.

- **Georgia Institute of Technology**
  Emory and Georgia Tech share a joint biomedical engineering department ranked third in the nation by U.S. News & World Report. The two institutions also collaborate on initiatives in nanotechnology, vaccine delivery, clean air and water, health services research, regenerative medicine, bioinformatics, neurosciences, pediatrics, medical devices, immunoengineering, health care robotics, and design of "smart" equipment and facilities to help the elderly and disabled.

- **Georgia Research Alliance (GRA)**
  The GRA is a partnership of business, research universities, and state government that fosters economic development. Through the GRA, the state invests in Emory research in nanotechnology, cancer, pediatrics, screening for new drugs, vaccines, AIDS and other infectious diseases, immunology, transplantation, clinical trials, bioinformatics, autism, imaging, cystic fibrosis, addiction, obesity, and Alzheimer's disease.

- **Morehouse School of Medicine**
  Emory's School of Medicine partners with Morehouse in serving patients at the publicly owned Grady Memorial Hospital (see page 12) and in training Morehouse residents. The two schools are also partners in research through the Atlanta Clinical and Translational Science Institute (see above) and other research initiatives.
Woodruff Health Sciences Center (WHSC) Highlights and Impact

- **Jobs:** The WHSC helps make Emory the largest employer in DeKalb County and the second largest employer in metro Atlanta.

- **Economic impact:** With $3.8 billion in operating expenditures in fiscal year 2016, the WHSC’s annual economic impact on metro Atlanta is estimated at $7.5 billion.

- **Construction:** Emory Healthcare (EHC) is constructing a 450,000-square-foot tower addition to Emory University Hospital (EUH), scheduled to open in 2017, and is also making extensive renovations to the existing EUH building as well as EHC outpatient facilities. EHC is also partnering with the Atlanta Hawks to build the 90,000-square-foot Emory Sports Medicine Complex in Executive Park, which will include a state-of-the-art practice center and training facility and the Emory Sports Medicine Center.

- **Clinical trials:** Emory currently has 17,240 participants enrolled in 1,800 clinical trials of investigational drugs, devices, and procedures, more trials than any other institution in the state.

- **Technology transfer:** Over the past 32 years, Emory has launched 46 products into the marketplace and helped create 82 start-up companies (46 in Georgia) in drug discovery, medical devices, diagnostics, and software. Nine out of 10 U.S. HIV/AIDS patients on lifesaving therapy take drugs discovered at Emory. Emory investigators have filed patent applications in more than 90 countries, including 2,917 in the U.S. and have been issued 1,758 patents in this country. The 32 patents Emory was granted last year addressed treatment options for HIV, hepatitis C, diabetes, and various cancers.

- **Research dollars:** The WHSC received $540.1 million in sponsored research funds in fiscal year 2016, bringing Emory’s total for the year to $574.6 million. These awards include funds for a consortium to develop vaccines and cure for HIV, drug development against emerging and manmade microbial threats, establishment of a national lab network to measure impact of environmental chemicals on children’s health, development of better treatments for malaria, a vaccine against breast cancer, and many more.

- **Physician workforce:** Emory’s medical school provides more than half of the residency training positions in Georgia; 54 of the medical school’s 104 residency programs are the only such programs in the state. Such programs provide a critical recruiting base for Georgia’s physician workforce.

- **Investment in education:** The WHSC invested 24.9% of its tuition income in fiscal year 2016 in student financial aid, an amount totaling $26.4 million.

- **Vaccine testing and development:** The Emory Vaccine Center is one of the largest academic vaccine centers in the world, with scientists working on vaccines for Ebola, AIDS, malaria, hepatitis C, influenza, tuberculosis, and other diseases. Emory’s Hope Clinic, which conducts clinical trials for promising vaccines, is part of the country’s premier networks for vaccine and prevention trials for infectious diseases, including globally emerging diseases like Ebola, Zika, and Chikungunya.

- **Charity care:** Emory Healthcare provided $72.3 million in charity care in fiscal year 2016. Emory faculty also provided $27.1 million in uncompensated care in fiscal year 2016 at the publicly owned Grady Memorial Hospital. Via the Emory Medical Care Foundation, the Emory faculty practice plan at Grady, faculty invested all payments received for patient care at Grady ($46 million) to support Emory’s patient services at that facility. Emory also is a preeminent provider of specialty care to indigent children in Georgia. The WHSC’s community contributions to support patient care, education, and research totaled almost $400 million in fiscal year 2016.

- **HIV/AIDS:** Emory provides medical direction of Grady Health System’s Ponce de Leon Center, one of the largest, most comprehensive AIDS treatment centers in the country. Emory is also a primary site in the nation’s premier NIH-funded AIDS clinical trials network and has had a national NIH-designated Center for AIDS Research since 1998.

- **Fighting cancer:** Winship investigators have led or contributed to the pivotal clinical trials testing nearly 75% of all anti-cancer drugs approved by the FDA since 2011. Winship played a key role in development of four new FDA-approved drugs to treat myeloma. Emory scientists also discovered the role of the PD-1 molecule in immune response, paving the way for development of new drugs being used against lung cancer and melanoma.

- **Transplantation:** The Emory Transplant Center is the fifth busiest solid organ transplant center in the nation and the most comprehensive in the state. Emory’s liver transplant program ranks second nationally and first in Georgia in patient outcomes. Emory researchers developed a new class of now FDA-approved immunosuppressant drugs for kidney transplant patients that are less toxic than drugs previously available.

- **Philanthropy:** In fiscal year 2016, the WHSC was awarded more than $178 million in private support from individuals, foundations, and corporations representing alumni, patients and their families, and friends.

- **Quality of care:** Emory Healthcare is the only system in Georgia that has three hospitals with Magnet designation, recognizing excellence in nursing care.
Emory Health Sciences and Related Facilities

1. Biochemistry Connector
2. Basic Health Center (outpatient pharmacy and toxicology; Bldg 13, Exec Park, inset)
3. Centers for Disease Control and Prevention
4. Children’s Healthcare of Atlanta at Lithia Springs (includes dining)
