

# Woodruff Health Sciences Center (WHSC)

## FY18-FY22 Strategic Plan

EMORY

ROBERT W.  
WOODRUFF  
HEALTH  
SCIENCES  
CENTER

### Mission

Improving the health of individuals and communities at home and throughout the world

### Vision

Be the leading academic health sciences center in transforming health and healing, through education, discovery, prevention, and care

### Values

We embrace **excellence, innovation, and collaboration**  
We treat everyone with **respect and compassion**  
We promote **diversity, equity, and inclusion**  
We **steward our resources** responsibly  
We act with **integrity**

## Goal Statements

### Interprofessional Education & Collaborative Practice (IPECP)

Transform healthcare through inter-professional learning and care to maximize health

### Transforming Models of Care

Continuously lead in developing, studying, implementing, and teaching care models that improve lives and achieve better patient outcomes and experience at a lower cost, with inherent joy of providing care by the care team

### Innovative Discovery

Fuel interdisciplinary discovery and innovative solutions to improve human health

### Constructive Culture

Be the best place to work, continuously learn, and grow for individuals and the health sciences center community

### Data Science

Transform discovery, education, and healthcare through data science

## Strategies

1. Cultivate our leaders to build a constructive, diverse, and inclusive culture

4. Invest in infrastructure to support IPECP across WHSC

7. Innovate clinical care delivery by supporting successful testing, implementation, and evaluation of impact on the quadruple aim

10. Enable high-risk, high-impact research leading to the discovery and development of new therapies and devices

2. Adopt the WHSC Pledge as the foundation of our culture

5. Institute inter-professional curricula that support team based competencies for all learners, faculty, and care providers

8. Align and support Health Services Research (HSR) across Emory

11. Catalyze synergies by bringing researchers together across organizational boundaries

3. Strengthen recognition of excellence and enhance work/life quality to promote professional joy

6. Accelerate the development and adoption of team-based care models and advance knowledge on IPECP effectiveness through research

9. Expand HSR/care models education and continuing professional development

12. Develop a Cohort of the Future that is representative of the State to target major disparities and significant health issues for Georgians

13. Launch a Health and Biomedical Data Science Center to drive research and teaching in biomedical data science and informatics across Emory and our partners
