Teaching Hacks Series

A hack has been defined as “*any trick, shortcut, skill, or novelty method that increases productivity and efficiency.*” This series will share actionable tips to enhance teaching and learning in the health sciences.

**Thursday,
November 9,
Noon-1pm**

Rollins School of Public
Health, Room CNR 3001

Learning Objectives:
after attending the
session participants will
be able to:

- Describe three approaches to improving learning in the health sciences
- Note how each approach could be used in multiple educational settings
- Apply one or more of these strategies to their own teaching

Daniel P. Hunt, MD
